Menlo Park Notebook #134 [N-80-08-09]

This notebook covers the periods August 1880 and October 1884. The first part is by Alfred Haid and contains analyses of ore samples sent to the laboratory in 1880. The second part was used by Edison in 1884 to record notes and drawings of the telephone. Parts of the book also appear to have been used by Edison's daughter, Marion, for drawing, writing, and math exercises. The label on the front cover is marked "Mr. T. A. Edison." The book contains 280 numbered pages.

Pages not filmed: 60-66, 75-115, 118-124, 127-135, 138-139, 142-172, 177-182, 185-217, 220-258, 261-270, 279.

Missing page numbers: 45-46, 67-74, 125-126, 173-176, 183-184, 259-260, 271-278.

Bullion 4/5 oz.
0.3 oz Gold
0.5 " Silver.

7) Jury & Dickinson, Assayers
Garfield, Chaffee Co Colorado
Letter and 2 small paper boxes,
both of them containing the same
specimen of rock; which they
suppose to carry Pt. Nothing

8) G. F. Justice, Agusa
Los Angeles Co. California
Letter and one small parcel of
rock. That the assayers cannot
agree upon:
1 oz Silver and traces gold
2 cannot be worked

9) F. W. Rayburn Cor valle?
Oregon.
No letter. Large timber with some
Only traces of Gold
as the rock is very hard it
cannot be worked

10/ T. A. Bonnel 48 Montrose Newark N.J.
Letter & package etc. 3 specimens of sand. Magnetic
A. 1.00 bullion 0.4 Gold 0.6 Silver
B. 0.7 bullion 0.2 Gold 0.5 Silver.
C. 0.8 bullion 0.6 Silver 0.2 Gold

11/ Nobles G. H. Bennett, Fort Bowie Arizona.
Quartz with Spots the
0.2 oz Gold, little Silver.

12/ John C. Anderson, Eagle rock Idaho.
Letter & little tenbox cont. some pieces of granite rock.
Asks if Platinum
No Pt but 0.1 oz Gold

John Anderson, Eagle Rock Idaho.
Black sand, magnetic
0.2 oz Gold per ton
Good for us.

N. B. C. Dyer Bodie Mono Co. California. Looks like Quartz mixed
2 bags tailings I & II
I nothing but traces of Gold
II 0.15 oz Gold per ton

Jo Castro, 54 Williams St. N.Y.
1 bag tailings (95 lbs.) common sand
Very poor; about one dollar.

C. D. Dobbins, Room 29 Trinity building, 111 Broadway N.Y.
Tailings from the Hathaway Hydraulic Mining Co. Nevada Co. California
These tailings are pebbles and gravel. Nothing of it magnetic
2 oz Gold per ton. Will test 1 ton for us

John F. Haynie Cabot Arkansas

Letter rec'd. 1 lb. of sand marked #6 Yellow Lead, mixed. little Mica. Not magnetic. Only traces gold.

Guy H. Gardner. 14 Lotts Millers Pl. N.Y.

4 bags of tailings with Cutter. only traces of Gold

Naomi P. Tadd, Forrest city Mich.

2 little bags of stone I & II. Nothing.

J. M. Longyear, Marquette & St. Phillips Quarterly as he says. but it is not. Poor stuff 2 lbs. Silver.

C. A. Lane, Bonanza Bar Cassia Co. I. T. Black Sand. Magnetic Nothing.

J. H. Moore Scottsville Ky. Rock mixed. Pyrites. Very traces of Gold.

Ira F. Crowell, 438 Pine St. Providence, R.I. Black Magnetic Sand 1/10 - 1/15 oz. Gold. Easy to concentrate it Good for E. Process.

James Demereau, Custer city Dakota T. One which the local assayer pretend to contain Tin and Platinum. Nothing

Asa Bingham, Conklingville
Saratoga Co. N. Y.
3 Specimens of minerals
Nothing.

William Manning,
North Cannonville Oxford
Black Sand. Looks for
Platinum
Nothing.

W. J. Dawson, Burlingtown
Iowa.
Grey Quartz. Looks for Pt.
No Platinum, Only traces
of Gold.

Malton Clevenger
Jeffersonville, Montg. Co.
Indiana.
Sand coarse, glittering particles
They are Sulphurets
Nothing of any value.

F. A. Cole, Smithville N. Y.
Piece of rock.
Only small traces of Gold
Cannot be worked.

Name left out

L. P. Buell, Crisman Boulder Co.
Colorado.
Soft rock with Pyrites.
1 oz. Silver } per ton No Pt.
½ oz. Gold }

P. K. Myres Tombstone N.S.

Lot of small specimens, very one of them is rich in Copper some assay considerably so, some also little Gold

If all these specimens are taken from the same locality, or from localities close together the region must be very rich, and worth while to be interested

Capt. C. A. Hayes
Castle rock Creek. Fork,
Infusorial earth

Barnes Meakin & Co.
Sidney N. S. W.
Sapphires in rock.

Junction city Oregon
John S. George.
Slightly magnetic Sand and pieces of rock.
In the mill it is settled as the rock only contains traces Gold, while the sand yields $3.00 a ton.
The white powder is Quartz
The metal is no metal but a worthless sulphuret.

George W. Parish
Pleasant Grove, Yakima Co.
Washington Terr.
Miner of Silver, No Gold.

Just Knight, San Bernardino
California. Yellow Sand
Nothing but Brass Gold
